Quarterly Report of Iowa Wireless Services

Iowa wireless Services and the Iowa Wireless Partners (Iowa Wireless) filed its last report on July 15, 2001. Since that time Iowa Wireless has continued to monitor the progress of its network vendor Nokia. It is our understanding that while there has been some delays in the testing scheduled to begin in October, Nokia still believes it will be able to comply with the Commission's June 2002 deadline. Should Iowa Wireless learn of any further delays that may impact Iowa Wireless's ability to meet the Commission's deadline, Iowa wireless will inform the Commission.

Once TTY compliant technology is available Iowa Wireless will work diligently to implement the Commission's requirements in its serving area. Iowa Wireless will follow the testing procedures established by the approximately 120 PSAPs in Iowa to complete compatibility testing for TDD devices. Iowa wireless is committed to working with our vendor Nokia and the PSAPs in Iowa to implement TTY capability in compliance with the Commission's requirements.
